

FBO Master

# FBO MASTER

## AI-ENABLED SIMPLIFIED FLIGHT MANAGEMENT

### WHAT IS FBO MASTER?

FBO Master is your one-stop resource for digitally managing your day-to-day aviation operations and aeronautical services. FBO Master is a SaaS platform designed with FBOs and aviation academies in mind. It has many features to help FBOs digitally manage instructor and student qualifications, schedule flight time on aircraft, manage aircraft maintenance and fueling, invoicing and payments, and much more.

## AI-ENABLED SIMPLIFIED FLIGHT MANAGEMENT

### FLIGHT SCHEDULING & RESOURCE MANAGEMENT

The scheduler module provides booking and scheduling views to view real-time resource availability and schedule pilots (students and instructors) to a desired aircraft.

### AIRCRAFT FUELING & MAINTENANCE MANAGEMENT

FBOs can quickly view the maintenance details of your aircraft, create new records, and edit or delete existing records. FBO Master allows users to manage aircraft fueling.

### WHY CHOOSE FBO MASTER?

Our platform provides a unified and simplistic solution to help fixed-based operators efficiently manage their day-to-day operations. FBO Master was designed with the actual input of FBOs with FBOs in mind.
